Hills Humiliation

The Democratic Populistic convention convened in Chicago I desday and the free silver men forced the fighting from

Every possible appeal was a perior base of the sixteen Southern States for McKialey, protection and sound money argued that his defeaf would be a per conal affront that he was a Democrate of the most pronounced type, one who would give them a peech containing the true Democratic doutrine, climinating all thectonable feature and is one man s ited it would be found that he repre sented both ides the appeal, how ever fell upon deaf ears and the conver tio simply jumped on Hill with both feet. Con cloud of their strength the silver men evinced no disposition to avoid a contest at the very cutset on the contrary they mysted it

Hill is not only popular with the pirty but a verv foxy politician and since his striyal in Chicago has taken especial paigs to avoid bringing him off in corffict with the opposing force it a therefore possible that he received some silver support but in spite of this fact the downfall of a party boss has never been more complete and the New York Senator is left in a most, humiliating

Here is a man who ha for years been . great fuctor in the councils of the Democratic party an ex Governor of the State of New York and at present a I mited States Senator from that State not only refused the paltry honor of temporarily presiding over the deliberations of a party convention, but literally turied under an avalanche of is useless for the anti silver men to hope for any consideration. The Altgelds, Blands and other lunatics are in full cor trol of the machine and propose to run it at high pressure of the two-thirds rule is found to be a stumbling block in their pathway they will simply boul it out of Nos. 22, 25, 29 Central Street existence, but it seems very likely after this vote enough delegates will swing into I be with the majority to farmish ch nece cary two-thurds

Still Borrowing Trouble. The Loston Herald continues to bor row trouble conce uing Governor Me hipter's attitude toward the currency question. It declares that the turiff is a defunct is ue and say

He has already done it. It would be impossible to draw a clearer declaration in support of sound money than that contained in the St I one platform Contrary to the expertation of the Herail and other organs of a similar character there was no disposition to evade this is ue The currency plank is a cleancut aunouncement of the party's devo tion to the existing gold standard, and in his speech to the Notification Committée

But if the Herald has any idea that the tariff question is going to be sidetracked in this campaign it is bound to be disappointed Governor McKinley represeats more than any other man to-day the principle of protection It is to that very fact that he owes his most remark able success in the St. Louis convention He was the choice of the people who are now demanding a restoration of the protretive system to the end that this country may be lifted out of the slough of depression into which it, was cast by th Democratic party. The people believe in an honest dollar and they also want the privilege of earning it a privilege that has been withheld altogether or very materially icurtailed as a recult of the inexensable folly of the Democratic party. The Democrats admit the folly CREAM BALM by their persistent efforts to avade an inme of their own making four years age

hence their threshe of boiling from the Democratic party if the Chicago conver. tion a lopts a free allver platform Such threats are being made and those

in touch with opinion in the South have used them in private conversation and in the counting room. But they have not been generally attered to the public ear As the danger of free silver becomes more imminent, however, the re 11 serve is broken and the real centiments of many in the South are spoken openly.
